Management Message

Chairman

Engr. Samer El Masri

I take pride on my passion for all matters related to Civil Work, Interior Fitting and Design along with my accumulated technical experience within the domain. This instigated my personal involvement in founding, forming and shaping the soul and body of M4 Contracting S.A.R.L – Abu Dhabi. I have personally assembled a team of elite talent within the region that shares my passion and adds subject – matter expertise to all our services. M4 Contracting S.A.R.L – Abu Dhabi has succeeded in reaching the trust of its clients by providing remarkable solutions. In a short span of its existence, M4 Contracting S.A.R.L – Abu Dhabi has shown exceptional growth in terms of its clientele and number of projects completed.

Our cumulative result is being a customer centric company with personalized service offering that is inspired by the customer’s need and delivered via expert analysis, consulting and knowledge leading to custom – built solutions. We believe that our clients are our partners.

At M4 Contracting S.A.R.L – Abu Dhabi, we gather client’s requirements, carefully analyze them and get back to the clients with a solution that best fits their idea & budget. Our job is to achieve their needs with the highest specification levels and quality service within budget and on time.

Partner

Engr. Ramzi Masri

Engr. Ramzi Masri is a graduate in Civil Engineering and heading the MEC in U.A.E. Engr. Ramzi direct and control all strategic and business aspects of the company through his vast professional knowledge, specifically his knowledge in tender analysis, cost estimation, design and project management are truly commendable. Engr. Ramzi makes high- quality investing decisions to increase profits and advance the business,

With massive years of experience in Construction Industry, his involvement and commitment are evident from the wide spectrum success of M4 Contracting – S.A.R.L – Abu Dhabi, as well as elevating organizational performance through skilful innovative Leadership.

General Manager
Engr. Rami El Masri

Quality is our single-minded pursuit in the application of new technologies. In our wide ranging diversity – we innovate continuously, as we strive to provide unsurpassed satisfaction of our Clients through Construction Excellence.

M4 Contracting S.A.R.L – Abu Dhabi has been trusted to build many of the prestigious iconic project names that became business addresses in the UAE business districts. For years, these buildings housed various local and international companies that have propelled this country’s economy.

M4 Contracting S.A.R.L – Abu Dhabi works clearly to reflect the professionalism that matches the purpose of these structures. We believe that the cordial relation with our valued clients will sustain as partners in progress. We look forward in developing more successful partnerships with prospective clients in future. Indeed, it will facilitate us to grow and serve you even better in the days ahead.

Profile History

With more than 10 years of experience in Lebanon, M4 Contracting branched out in 2011 opening branches both in Abu Dhabi and Dubai to cater to the expanding Gulf market. This expansion has resulted in providing further services while specializing in Infrastructure Construction and Fit-Out Services.

M4 Contracting staff shares local and international experience that strengthens each project team allowing the highest of standards, quality and client satisfaction. Whether working on small, custom-built works, or a large scale project, our focus is on setting the standard for construction, maintenance and fit out services. Central to that is our commitment to consistency which helps us to deliver predictable outcomes for our customers, regardless of their building type, location or the sector in which they operate. That is why both International brands and local organizations trust us to deliver their spaces on time, on quality and on budget.

We have a strong commitment to client satisfaction. We work closely with our clients to ensure that their projects receive the attention they deserve. We need our clients and customers, so we go that extra mile to look after them.

“YOU IMAGINE, WE DELIVER”

Philosophy/ Mission/ Vision

COMPANY PHILOSOPHY

At M4 we are committed to excellence. We are proud of our past success and we constantly Strive to improve.

Our Vision

To maintain and improve excellence in performance and service to exceed our clients' expectations and to support our strategic growth, continuing to build a strong, durable company, capable of extending our service into emerging markets.

OUR MISSION

Our mission is simple — to provide our clients with top quality expertise and service in a safe, Environment - friendly, cost-effective manner.

To Our Clients

We will offer excellent quality contracting services to our client by utilizing the best available technology and well trained man power from project conceptualization to project completion & maintenance. Our service will surpass their expectations and will set the bench mark for our competitors.

To Our Employees

We support the innovation and creativity of our staff. We believe that their success as individuals is the foundation of our success as a company. Therefore, we will uphold their welfare, nurture their talent, encourage their progress and preserve their health and well-being.

TO THE ENVIRONMENT

We will preserve the environment and our natural resources. We will use our knowledge and skills to reduce the pollution, eliminate hazardous practices and decrease waste. We will utilize our resources wisely in hopes of a cleaner and greener future.

To the Community

We believe that our success should benefit the community and that our prosperity should aid the local economy. We will contribute to the development of our location and support its trade, integrate our business with its duties and support its initiatives.

Core Values

At M4, our core values provide the framework for our mission, vision, strategies, decisions and behavior. We believe that these principles are of paramount importance to the success of any business as they were, and continue to be behind ours. They are the standards by which we conduct our daily business and all our interactions.

HEALTH, SAFETY AND ENVIRONMENT

People are our most important asset. Hence, it is imperative to protect the health and safety of this great resource and protect the environment where they live and prosper.

QUALITY

We are continually striving for excellence; improving and achieving the highest standards in everything we do.

RESPONSIBILITY AND ACCOUNTABILITY

As a corporation and as individuals, we take full responsibility for what we do and hold ourselves fully accountable for our actions.

STRATEGY

M4's goals and ambitions for the future are focused on continuous improvement, sustainable Growth and expansion. To realize these aspirations, our management has developed the company with the following guidelines:

- Embrace core values that encompass integrity, ethics and commitment, promoting a culture of value and trust.
- Stress adherence to local laws, rules and regulations and support our company's quality, health, safety and environmental policies.
- Adopt a clear pragmatic vision for the future of our company.
- Eliminate bureaucracy through a relaxed vertical communication policy.
- Encourage horizontal communication to enhance cross-functional collaboration.

- Promote an initiative/proactive approach throughout the company.
- Reward employees as individuals and as teams to build confidence, satisfaction and endorse Team work.
- Work with top-of-the-line, latest-technology, well maintained fleet of equipment.
- Hire only competent professionals and instate a generous training program.
- Continue to provide the best possible quality of service.
- Maintain highest possible percentage of repeat clients and onboard employees.
- Allocate adequate resources.
- Promote close working relationships with clients and among employees.
- Build a culture of professional trust between the organization and its employees.
- Earn a reasonable profit to facilitate sustainability, progress and growth.

OUR APPROACH

The following general guidelines outline the way we handle your project. Here is what we always strive to do:

- Develop a mutually beneficial partnership with you.
- Answer your questions and address your concerns in a spirit of positive collaboration.
- Listen to your needs and integrate those needs into the project.
- Assess your specific project requirements and translate those into our concept.
- Have our experienced professional project team's work closely with yours to satisfy your requirements.
- Allocate necessary resources to meet schedules and deadlines.
- Utilize our years of experience to foresee obstacles and offer you alternatives.
- Abide by all applicable statutory laws, regulations, work ethics and our own core values.

***“OUR REPUTATION BRINGS YOU TO US, OUR PERFORMANCE WILL
CONVINCE YOU TO COME BACK”***

WHY M4 CONTRACTING?

M4 Contracting has a successful track record working with successful local and international organizations that demand consistency in quality, service and value for money, regardless of where their project is located.

Our Clients include owners, developers and occupiers in all sectors. From the onset we strive to fully understand their objectives so that we provide the most effective route to success. We take a collaborative approach with our clients, consultants and trade contractors, ensuring that we are working as a team at all times. Open communication and close collaboration on our projects encourages shared innovation. As a result we have succeeded in saving many clients both time and money. In line with M4 Contracting's vision and values the company seeks out local suppliers that share our commitment to all stakeholders, the community and the environment and who proactively seek new technical and commercial solutions to ensure continual improvement.

We develop everyone in our company to do their jobs with confidence, from interns' right through to our most experienced people.

Our results come through a great team effort with each other, our supply chain and clients. We are as flexible and as careful as we possibly can be to minimize any disturbance to you.

Right first time

- We know that your demands will be high. We understand we are only as good as our last job. So we start afresh every day – working harder than ever to deliver the highest standards of quality, reliability and value that you expect. We work to consistent standards and procedures – checking and double checking to get everything right the first time

Knowledgeable

- At M4 Contracting we have an in depth knowledge of the industrial, commercial and fit out sectors. We are well briefed in design processes, materials and current best practices. We keep abreast of ever changing legislation including Building Regulations, Environmental Legislation and Regional Regulations.

Transparent

- We always aim to start with the clearest possible understanding of what you need and want to achieve. Then we keep things as clear and open as we can, at every stage of the process. We react quickly to any problems, sort them out fast and resolve any issues amicably.

Flexible

- We are big enough to deliver on substantial projects while our management structure and philosophy enables us to remain very responsive to our client's requirements and needs. We recognize that specifications can change or unforeseen circumstances may result in necessary changes. We respond to situations like this effectively and do all we can to accommodate any client driven variations.

Safety

Safety is a value that is fundamental to our culture. M4 Contracting has earned an industry-leading record of achieving zero lost-time incidents on projects. Year after year, our zero accidents philosophy helps put our safety performance right at the top of the industry.

At M4 Contracting, we believe that every accident, and therefore every injury, is preventable, and we embed that philosophy into every project through a combination of technical field procedures and ongoing training programs. Every employee has stop-work authority – if it is not safe, do not do it. We also ask our subcontractors and partners to adopt our commitment to safety and health. The result is exceptional safety performance, even in hazardous work environments, severe weather, and remote locations.

Our dedication to safety helps keep workers safe and it also pays off for our customers. Their operating costs go down and productivity goes up because less time is lost to accidents. And our people go home to their families safely at the end of each day.

SEVICES

We specialize in contracting from A to Z, construction, maintenance, and fit out services.

CONTRACTING A – Z

M4 Contracting will work to make your vision a reality from the vision to the adding the final touches.

M4 Contracting deals in the following sectors.

- Infrastructure
- Industrial
- Commercial
- Accommodations (Residential and Public)
- Leisure
- Mixed – Use

INFRASTRUCTURE

M4 Contracting is a leading integrator of complex, sophisticated and innovative infrastructure projects that improve national infrastructure and is an experienced provider of local and regional projects that help build lasting communities.

We offer a broad range of capabilities in construction, civil engineering and mechanical and electrical engineering services. With offices throughout the Gulf we offer locally-focused service delivery - with the support of our national network of expertise and resources.M4 Contracting

delivers a staff of highly-trained construction professionals, a wealth of knowledge and innovative solutions to every project. In construction services, we are differentiated by the breadth, and depth of our expertise, together with local knowledge of the markets in which we operate and our close relations with supply chains. Finding a company that mitigates risk, takes proactive measures, rewards safety performance, routinely executes with no recordable or lost time incidents and minimizes environmental and social impact is critical when choosing a constructor. Using a robust pre-construction planning process, M4 Contracting employs numerous business execution tools including project cost management systems, planning and scheduling software, quantity-based progress and performance tracking, and integrated project management software.

M4 Contracting provides full service property maintenance we have acquired expertise on property maintenance through years of experience working with everyone from owners of single family homes to industrial and commercial properties. This expertise allows us to help you choose the appropriate maintenance solutions for your property.

FIT-OUT

We change empty space into our client's vision. Our teams have delivered tailor made interiors for some of the world's most successful and well-known organizations in their respective fields. Working with their consultants, or interpreting their vision to deliver a design and build project, our collaborative approach has resulted in award-winning workplaces in the region. Our teams have experience working in occupied workplaces, allowing our clients to continue their daily activities, saving them both time and money. We are also used to working in multi-tenanted buildings and in close proximity to neighbors', enforcing strict procedures to ensure their well-being and comfort at all times.

Organizational Chart

Quality Plan

Management Commitment

- ❖ Top management (comprises of General Manager) commits to the establishment, implementation and continual improvement of the effectiveness of Management system by setting the quality & HSE policy, quality & HSE objectives, reviewing system performance and ensuring adequate resource availability.
- ❖ Management System is implemented by :
 - Communicating to employees regarding the importance of meeting client requirement on time by maintaining quality of construction.
 - Identifying the need of training and providing the training to enhance employee competency.
 - Ensuring that procedures are adhered across M4.
 - Communicating the Quality & HSE Policy (by displaying the policies, conducting awareness sessions) and making everyone understand the policies.
- ❖ Deployment of objectives across all activities and monitoring the performance by means of:
 - Reviewing the status of deliverables to the customers.
 - Reviewing the status of key performances of indicators.
 - Analysis of data from all departments / functions.
 - Management review meetings.
 - Internal quality & HSE audits.
 - Client complaints analysis etc.
 - Nonconformance analysis.
 - Evaluating the effectiveness of corrective and preventive actions.
- ❖ Reviewing and ensuring the availability of resources to achieve the objectives. QHSE MR ensures that personnel involved in executing key processes or critical functions are trained and competent. Top management is responsible for providing the resource required for maintaining and for the continual improvement of the management System.

Procedure Number: M4-TM/P01
PROCEDURE NAME: Management Responsibility

CLIENT FOCUS

- ❖ Top Management ensures that:
 - Project specifications are understood and projects staff execute the construction services as per the approved construction drawings. Client complaints / concerns are handled more professionally and effectively and results of investigation are communicated to client. Client is assured quality construction services and on time completion of the project.
 - Cost of the project is not escalated and within the estimated cost.
 - Client perception is collected and analyzed to assess the level of client satisfaction.

- ❖ To the extent possible, M4 endeavors to exceed the client requirements.
- ❖ To enhance the client satisfaction system is established and maintained through:
 - Key processes employed in the organization understanding client requirements comprehensively.
 - Clarifications of the ambiguous data.
 - Initiative of corrective and preventive actions in case of no conformities identified.
 - Handling client complaints more effectively and communicating to the client
 - Ensuring that applicable construction standards or regulations are considered in project execution.

Quality Policy

Management has established quality policy that reflects the top management commitment for quality and their clear direction towards achieving client satisfaction. Quality Policy provides framework to establish quality objectives.

Management is committed to continually improve the effectiveness of the Management system.

- The documented and established quality policy is corresponded across the organization by conducting meetings, displaying at appropriate places, imparting training to all staff to ensure that staff understands and adhere to the quality policy.
- Management ensures that all the employees whose work affects the quality of the product and service understands the “Quality Policy” of the organization and is committed towards it.
- Quality Policy is periodically reviewed to ensure its continuing suitability with the organizational needs and the scope of organization.
- Implementing Quality Management System that complies with ISO 9001:2008 Standard.
- Enhancing the employee competency by providing continuous training.
- Comply with the codes of constructions.
- Monitoring, measuring and analyzing the performance of processes.
- Setting up measurable and achievable quality objectives.
- Enhancing the satisfaction of client and consultants.

Management is committed to continually improve the effectiveness of Quality Management System.

Health & Safety

Health, Safety & Environment have always been the primary concern of M4 Contracting before, during and after the execution of our project no matter how big or small they are. Therefore M4 Contracting has developed its own HSE plan that shall govern its performance and the performance of its sub-contractors during the execution of the project.

The HSE plan comprises M4 CONTRACTING's HSE policy statement, signed and approved by its top management. The HSE Policy Statement is respectively communicated to all M4 CONTRACTING staff/ Personnel so has to enhance their HSE awareness and verify their strict adherence to it.

M4 CONTRACTING very much considers to HSE and always targets A "Zero Incident Project".

MANAGEMENT COMMITMENT AND INVOLVEMENT

Purpose

The purpose of this section is to ensure the success of the program by having responsibilities defined and documented.

Statement

To maintain a safe work environment and involve everyone in the business from top management down is responsible for safety. Clearly defining responsibilities in writing will ensure the success of the program.

Employees must be aware of their responsibilities. These responsibilities will be discussed in the new hire orientation and will be reinforced throughout the employee's career.

RESPONSIBILITIES

Management:

- Provide and communicate policies and procedures to employees.
- Maintain a safe and healthy workplace for employees, clients, contractors and visitors.
- Maintain overall control of the Health and Safety Program.
- Review policies and procedures ensuring that all meet regulatory requirements.
- Ensure that all established safety policies are administered and enforced.
- Monitor personnel and hold them accountable for their performance.
- Ensure that proper equipment, tools and personal protective equipment are available to all employees.
- Take reasonable measures to identify, eliminate or control hazards.
- Investigate all incidents, provide corrective actions and ensure follow up is communicated throughout the organization.
- Administer the Health and Safety program.
- Participate in safety meetings.

COMMUNICATIONS

Purpose

The purpose of this section is to promote regular communications of M4 CONTRACTING commitment to safety. It is also to create an opportunity for employees to provide input on the safety program and any other initiatives.

Information Management

Employees of M4 CONTRACTING will be informed of and/or have access to the following:

- Incident and accident reports.
- Follow up actions.
- Hazardous conditions and corrective actions.
- Safety program goals and expectations.
- Any current industry alerts, safety information, legislation.
- Last meetings minutes.
- Any new or revised policy, procedures, laws or regulations.

Through this process M4 CONTRACTING management will:

- Keep documentation on all communications and meetings.
- Provide feedback to employees on safety concerns.
- Provide detailed instructions to employees on safety policy and procedure.
- Provide an open forum for employees to discuss and have concerns addressed.

To ensure that all communications are available to everyone, M4 CONTRACTING management will:

- Post all communications on bulletin board.
- Review previous meeting minutes at scheduled safety meetings.
- Post hazard Ids on bulletin board.

RESPONSIBILITIES

Management:

- Ensure relevant topics are presented at meetings including new legislation, rules, regulations and procedures.
- Ensure follow up on employee concerns.
- Participate in safety meetings.

Supervisors

- Ensure meetings are scheduled and a notice is put out to all employees in regards to the time and location of the meeting.
- Prepare an itinerary covering relevant topics.
- Appoint someone to take the minutes.
- Follow up on health and safety concerns.

Employees

- Ensure attendance at all meetings.
- If not possible then ensure that a copy of the meeting minutes is reviewed.
- Read and understand all communications, which are posted or delivered.
- Participate in all meetings, as they are an open forum.

HSE POLICY STATEMENT and OBJECTIVE

M4 CONTRACTING's Health, Safety and Environment policy always aims at taking all possible steps and measures to verify the health and safety of all people involved in the execution of project and prevent damage to property, equipment and environment.

All M4 CONTRACTING personnel are responsible for implementing HSE measures necessary to verify the well-being of all persons at work as other members of the public who may be affected by the operations being performed at the project site.

Equipment

At M4, we believe that in our demanding line of business, one simply cannot do the job without the proper tools, equipment and machinery.

What's more, our aspiration has never been just to do the job; but to do it in a safe, cost-effective, timely manner that always meets or exceeds our client's expectations. Hence, we spare no effort or resources to accumulate one of the most impressive fleets of modern machinery and support equipment in the region. These machines are operated and maintained by a well-trained group of operators and maintenance teams that get the most out of them whilst keeping them very reliable in the field.

Today, we are proud to own this full range of machinery and support equipment, which gives us great advantage over our competitors and facilitates our sound performance. With ample quantities in addition to excellent quality, we have always been able to utilize standby or backup equipment when and if needed to meet schedules.

Clearly realizing how vital this machinery is for our continued success, we never hesitate to acquire new equipment and are constantly on the lookout for emerging technologies. This is a vital part of our vision for the future.

One of the best reasons for our continuous progress and success is our Equipments.

- Mobile cranes 25-50 Ton capacity
- Bobcat all-wheel, skid-steer and track loaders
- Trailers, tankers, forklifts and pickup trucks
- Dewatering pumps, generators and air compressors, Grouting, rig, CFA, shoring and anchoring machines
- Excavators and shovels
- Vibratory hammers
- Graders
- All necessary test equipment, tools and accessories

We use only top-of-line products from manufacturers such as Bauer, CMV, Sany, Boramtec, Casagrande, Trive, Hitachi, Samsung, Sumitomo and Kobelco.

Our Projects

M4 Contracting is a leading integrator of complex, sophisticated and innovative infrastructure projects that improve national infrastructure and is an experienced provider of local and regional projects that help build lasting communities.

We offer a broad range of capabilities in construction, civil engineering and mechanical and electrical engineering services. With offices throughout the Gulf we offer locally-focused service delivery - with the support of our national network of expertise and resources. M4 Contracting delivers a staff of highly-trained construction professionals, a wealth of knowledge and innovative solutions to every project. In construction services, we are differentiated by the breadth, and depth of our expertise, together with local knowledge of the markets in which we operate and our close relations with supply chains. Finding a company that mitigates risk, takes proactive measures, rewards safety performance, routinely executes with no recordable or lost time incidents and minimizes environmental and social impact is critical when choosing a constructor. Using a robust pre-construction planning process, M4 Contracting employs numerous business execution tools including project cost management systems, planning and scheduling software, quantity-based progress and performance tracking, and integrated project management software.

Our Major Projects includes the following:

❖ AIRPORTS

M4 has successfully completed a range of airport projects. In doing so, we have become recognized as one of the design and construction contractors in the Middle East. We have the ability to deliver projects ranging from major international terminals, runways and associated infrastructure to regional and military airports.

Our services now encompass design, development, construction and operation and maintenance. Airport infrastructure works are a core part of our business and our teams are experienced in providing the engineering skills and technologies necessary to deliver both airside and landside support facilities. Working closely with airport operators, owners, and carriers – as well as with the general public – we understand the need for maximum safety and security within ‘live’ environments. Utilizing our own batching plants and pavers to lay both asphalt and Pavement Quality Concrete (PQC), we work within tight time frames, minimizing lead times to reduce the impact of our works on customers and end users.

In every project location, we utilize the expertise of our dedicated and long established supply chain, working together to develop optimum solutions that provide best value and exceed customer expectations. Our projects are delivered through a variety of procurement routes including Design and Build, as consortium members and as international partners. In the last fifteen years, we have completed many airfield projects worldwide – including the development of new runways and taxiways, the improvement and upgrade of existing infrastructure and the provision of a range of support facilities.

❖ BUILDINGS & WAREHOUSES

M4 Contracting is a leading integrator of complex, sophisticated and innovative buildings and warehouse projects that contribute to the nation's development and is an experienced provider of local and regional projects that help build lasting communities. We offer a broad range of capabilities in construction, civil engineering and mechanical and electrical engineering services. With offices throughout the Gulf we offer locally-focused service delivery with the support of our national network of expertise and resources. M4 Contracting delivers a staff of highly trained construction professionals, a wealth of knowledge and innovative solutions to every project. In construction services, we are differentiated by the breadth, and depth of our expertise, together with local knowledge of the markets in which we operate and our close relations with supply chains.

❖ HEALTH CARE/ HOSPITALS

The healthcare business is ever-changing and has its own set of challenges and demands and at M4, we understand these very basic needs of our healthcare clients. Being one of the experienced healthcare construction companies in UAE, we help you achieve your goals more efficiently and effectively. That's precisely why we just don't focus on erecting buildings in the name of constructing hospitals & healthcare departments. Rather, we go a step ahead towards designing and constructing hospitals that are truly capable of relieving the patients and improve their lives for the better.

Every day hundreds and thousands of patients are treated at a healthcare facility. Hence, it is impertinent that hospital authorities and owners construct highly sophisticated and state of the art hospitals for their patients. At M4, we are willing to go past every hurdle to construct the ideal hospitals & healthcare facilities for our clients across the country.

Our clients regard us as one of the best hospital construction companies in the business, simply because we are highly reliable and easily dependable. Each day, we focus on developing hospitals that are world-class and feature best of the facilities. We construct modern hospital infrastructures featuring best of the facilities and amenities.

❖ FIT OUT WORKS

We change empty space into our client's vision. Our teams have delivered tailor-made interiors for some of the world's most successful and well-known organizations in their respective fields. Working with their consultants, or interpreting their vision to deliver a design and build the project, our collaborative approach has resulted in award-winning workplaces in the region. Our teams have experience working in occupied workplaces, allowing our clients to continue their daily activities, saving them both time and money. We are also used to working in multi-tenanted buildings and in close proximity to neighbors', enforcing strict procedures to ensure their well-being and comfort at all times.

Client Name : M/s. ADAC – Abu Dhabi Airports Company PJSC
Project Description : Design & Build Airfield works at Delma and Sir Baniyas for M/s. ADAC – Abu Dhabi Airports Company PJSC
Contractor : M/s. M4 Contracting SARL
Location : Delma & Sir Baniyas International Airport

DESIGN AND BUILD OF DELMA AND SIR BANIYAS ISLAND

Delma Island Airport is undergoing a transition from military airport facility to civilian airport facility. The Design and Build Airfield Services at the Delma Airport are intended to deliver the operational efficiency required for the certification of the Airport by GCAA.

The scope of works comprises the following main tasks:

- 1) Delethalization
 - a. Site Clearing
 - b. Earthwork
 - c. Laying of 100mm Base Course Materials
- 2) Roads (Sub Base Preparation)
 - a. Perimeter Roads
 - b. Inner Access Roads
 - c. Outer Access Roads
- 3) AOA Fence Including Crash Gates
- 4) Apron Marking Including Aircraft Movement Simulations
- 5) Electrical Works (Relocation of Existing Transformer/RMU and ILS Localizer Hut)
- 6) Upgrade of Fire Station
 - a. Watch Room
 - b. Renovation of Kitchen
 - c. New Parking Bay and Car Shades
- 7) Air Traffic Control Tower Upgrade
- 8) Mosque (Optional Work)

Sir Baniyas Island is dedicated to wildlife conservation and the Airport is being transitioned from a military facility to civilian aviation facility.

The scope of works comprises the following main Tasks:

- 1) Delethalization works (Optional Works)
 - a. Site Clearing
 - b. Earthwork
 - c. Laying of 100mm Base Course Materials
- 2) Roads (Sub Base Preparation – Optional Works)
 - a. Inner Access Roads
 - b. Outer Access Roads
- 3) Electrical Works (remove and replace substation and generators)
- 4) New ARFF Building
- 5) AGL Duct Bank (Provisional Sum)
- 6) Storm Water Drain (Provisional Sum)

PROJECT SALIENT FEATURES:

Duct Bank Laying	11000 Lm
Cable Laying	9000 LM
Manholes	185 No's
